10th Quadrennial International Conference on
Vestibular Schwannoma and Other CPA Tumors

May 9-11, 2027 Coex Magok Seoul, Korea

Welcome Message

Dear colleagues and friends,

On behalf of the Organizing Committee, it is our great pleasure to announce that the 10th Quadrennial International Conference on Vestibular Schwannoma and Other CPA Tumors (VS 2027 Seoul), hosted by the Korean Skull Base Society, will be held from May 9 to 11, 2027, in Seoul, Korea.

Since its inaugural meeting in Denmark in 1991, this conference has served as a premier international forum for experts from diverse disciplines dedicated to advancing the diagnosis, treatment, and understanding of vestibular schwannoma and other CPA tumors.

Seoul, a city where tradition and modernity harmoniously coexist, offers a rich cultural heritage and dynamic urban environment that will provide an inspiring setting for scientific exchange and meaningful connection.

We warmly invite all members of the global skull base and neurotology community to take part in this important event. Your participation and contribution will be instrumental in enriching the dialogue and fostering progress in this field. We look forward to welcoming you to Seoul in May 2027.

Sincerely,

Yang-Sun CHO

Co-President, VS 2027

Shin JUNG

Co-President, VS 2027
